

INTRODUCING CI/CD TO THE UDAPEOPLE TEAM

VINCENT IROLEH

VALUE PROPOSITION

PRODUCT

Benefits

Smaller Code Changes

Fault Isolations

Faster Mean Time To Resolution (MTTR)

More Test Reliability

CUSTOMER

Benefits

Customer Satisfaction

Increase Team Transparency and Accountability

WHY CI/CD

Utilizing a CI/CD approach will keep our product up-to-date with the latest technology and allows us to gain new customers who will select us over the competition through word-of-mouth and positive reviews. Our customers are the main users of our product

HOW

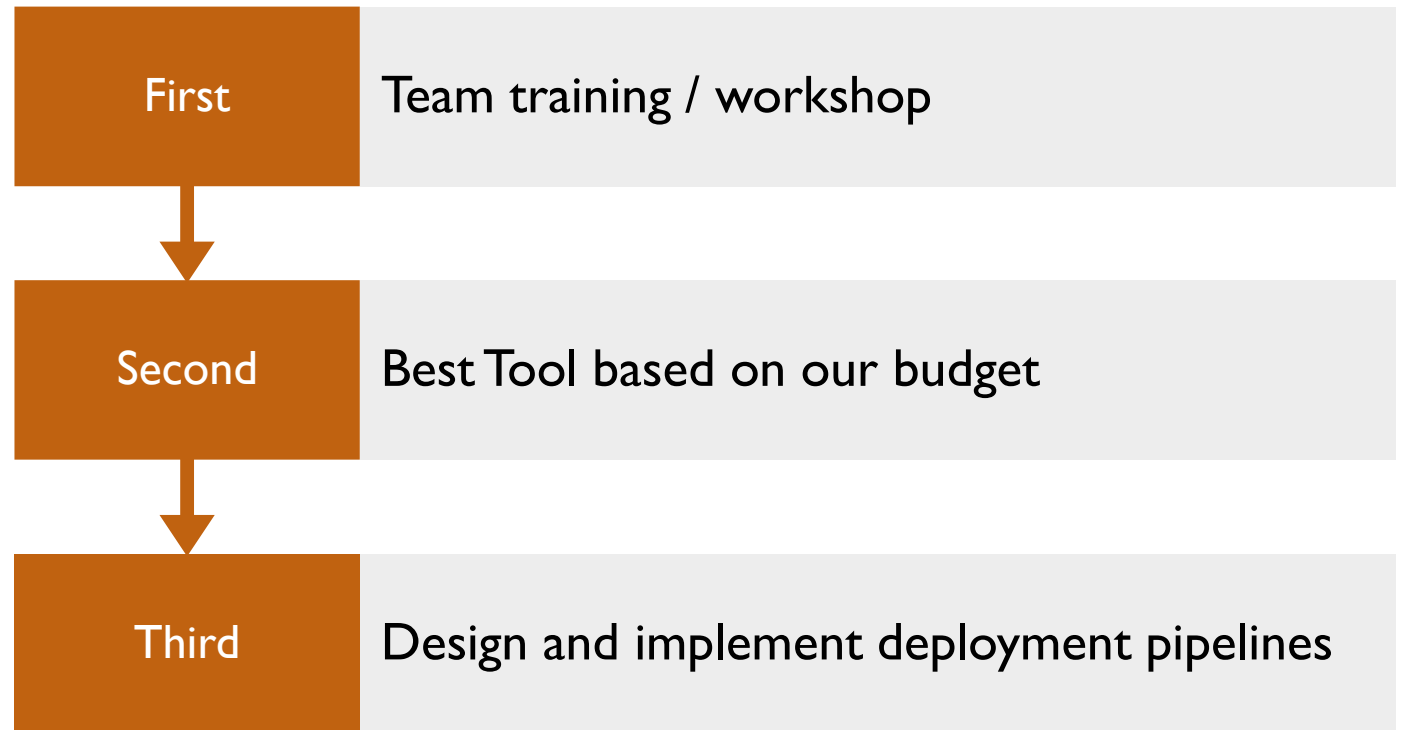

With CI/CD we can better support a platform for business growth.

Including:

- **Less developer time on issues from new code.**
- **Less time to market, reduces downtime from deploy –related crash.**
- **Less human error and prevent security holes**

ROADMAP

THANK YOU

VINCENT IROLEH
